About Mrs. J in the Library

I'm a teacher-librarian with over a decade of experience teaching information fluency and research skills to elementary students.

I believe teacher-librarians and library spaces should inspire and empower students to create, as well as read, research, and think critically. I teach with literature-based activities in K-2 classes and library centers in grades 3-5, in addition to teaching collaboratively with classroom teachers and managing my library's physical and digital spaces. You can find me online at [Mrs. J in the Library](#), and on social media.

Because every library and every school is different, all my products are editable so that my customers can modify them for their students' needs. If you have any questions about one of my products, please don't hesitate to [contact me](#).

Teacher's Notes and Terms of Use

- 1. These library shelf signs are designed to fit exactly on the tall backs of plastic magazine file case**, sometimes called file boxes, file holders, or book file cases. They can be purchased from Demco ([large ones here](#) or [here](#)), or The Library Store ([color or translucent](#)) if you don't have any extra ones in your library or other libraries in your district. You can even find cardboard ones on [Amazon](#) (affiliate link).
Please note: The products linked are available as of November 2020. If you make a purchase through the affiliate links in these notes, I may received a small commission.
- 2. The Dewey nonfiction signs are printed 2 per page** and they cover the whole back of the magazine file box. **The letters are printed 4 per page**, and they can be doubled up to save shelf space. **Cut and laminate the signs** for the most durability. I taped them on the magazine boxes with [clear packaging tape](#) or [Mavalus tape](#) (affiliate links).
- 3. You may modify, delete, and replace any of the clipart, images, or text.** It is ALL editable! [See this video tutorial](#) on how to quickly and easily change the color scheme of all the signs at once.
- 4. If your shelves are too short** to fit the whole magazine file box, turn it on its side so the bottom shows. I did that on my library's everybody shelves with the alphabet letter signs until I could weed and move the shelves to accommodate the taller signage.
- 5. Terms of Use** – This product is copyrighted by [Collette J. / Mrs. J in the Library](#). **By purchasing this product, you are purchasing a one-user license, so please do not share this product with others.** Feel free to edit any of the TEXT (not graphic) content according to your needs.
- 6. Graphics Terms of Use** – This product was created using licensed graphics from several graphics/clipart artists (listed on last page). It is a violation of copyright law to “lift” or remove the graphics for other purposes. To obtain your own license, visit the artists' websites.
- 7. Want more practical tips and inspiration for your library?** [Sign up for my email newsletter](#), and I'll send you helpful blog posts, resources, and occasional product news right to your inbox!
